

FROST & SULLIVAN

Strategic Framework for Enterprise Digital Transformation

A Joint Capability Profile for Enterprise Digital Transformation.

YOUR PARTNER IN DIGITIZATION

At Frost Digital Ventures, we are committed to driving digital transformation in the BFSI industry. We believe that every financial institution can achieve success by embracing strategic digital advancements that enhance efficiency, security, and customer experience.

Our role is to bridge the gap between banks and world-class software and service providers who deliver cutting-edge solutions. From core banking upgrades to AI-driven automation, we connect institutions with the right partners to ensure seamless impactful innovation and Outcome-driven delivery.

Whatever your bank needs, we're here to help. With our network of trusted industry experts, we provide tailored solutions to support your digital journey. Let's work together to build a stronger, more future-ready financial sector.

Frost Digital Ventures is a Proud Member of

The Philippines' leading and largest digital trade organization comprised of startups and unicorns collectively generating over 90% of digital-initiated transactions volume in the country today.

AAP is the national industry body advancing responsible and ethical AI and analytics adoption across sectors. It brings together industry, government, and academia to build talent, set standards, and shape the country's AI ecosystem.

What does Frost Digital Ventures do?

We're a boutique technology consulting and implementation firm backed by an exceptional advisory board with 200+ years of collective experience in global banking, finance, and technology solutions.

With deep market insights, local industry expertise, and a strong network, we extend our partners' sales efforts, allowing them to enter previously inaccessible markets.

Our methodical approach entails completely analyzing our partners' offerings, establishing customized marketing strategies, generating leads, and overseeing the entire sales process from beginning to end.

We take full ownership of the digital lifecycle from strategy to support to both clients and partners throughout the journey.

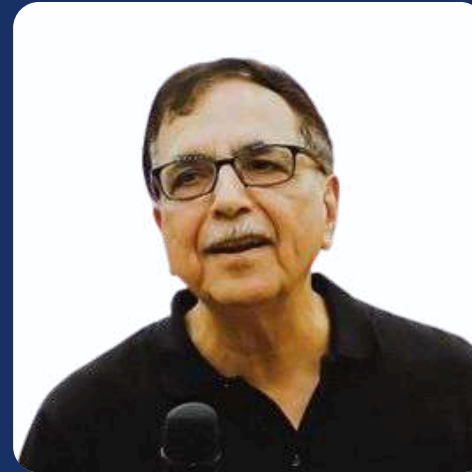

Our Strategic Team

We set direction and keep execution aligned from planning through delivery. We translate your business goals into a clear strategy and a practical roadmap. We provide leadership oversight and delivery governance so decisions stay fast and progress stays on track. For you, this means confident execution and measurable outcomes.

Our Alliances

To ensure that we have the furthest reach in to our market, we engage with many of the major industry advisors, consultancies and system integrators. We attend local conferences and events to stay on top of what's happening in the market. Each year we run a few events with partners, inviting targeted audiences, who are the buyers and influencers in their businesses. We stay on top of what's happening locally through our network of alliances and other relevant industry news resources.

The Power of Synergy

A Joint Capability Profile by Frost Digital Ventures & CAS Total Solutions

Merging FDV's high-level strategic advisory with CAS Total Solutions - a **35-year legacy of technical excellence** to ensure your vision is backed by industrial-strength delivery, with a **300+ person engineering bench** for seamless implementation and **24/7 mission-critical support**.

Our mission is to serve as the One-Stop Strategic Partner for organizations across the Philippines and the ASEAN region, managing the entire digital lifecycle from initial diagnostic to 24/7 mission-critical support.

Our Key Focus Areas

Digital Banking & Fintech

Supporting Banks with Secure and Efficient Platforms.

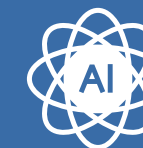

Cybersecurity, SIEM & SOC

Protecting Your Digital Future with Frost Secure.

Cloud & Business Continuity

Keeping Banks & Business data safe & easily accessible.

Advanced Automation & AI

Driving Efficiency with Intelligent Automation.

The Delivery Framework: PMO & Operational Excellence

The cornerstone of our alliance is a shared Project Management Office (PMO) that prioritizes "Outcome Ownership." We don't just deliver software; we deliver business results.

01 Deep Diagnostic Methodology

We move beyond surface-level requirements to uncover root-cause bottlenecks, ensuring every technical intervention aligns with long-term strategic goals.

02 Agile Transformation & Relationship Management

Our execution is driven by dedicated Business Relationship Managers who act as an extension of your leadership

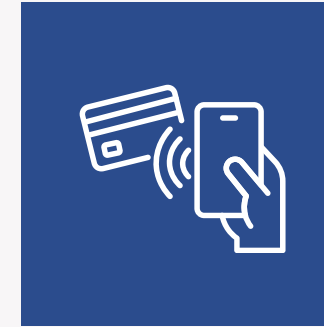

03 Zero-Failure Quality Assurance

Through automated testing pipelines and rigorous QA protocols, we maintain a 100% success rate on complex, multi-layered transformation projects.

Digital Banking & FinTech

Building a Resilient, Scalable Core

We empower financial institutions to outpace digital-native competitors by modernizing legacy cores and launching agile fintech capabilities. By leveraging our deep expertise in **Infosys Finacle** and our proprietary **OnePoint API Management platform**, we reduce integration timelines by **up to 40%**. Our approach ensures that your core banking environment is not just stable, but serves as a flexible foundation for open banking, unified payments, and seamless customer onboarding.

Core & Payments

End-to-end implementation of Tier-1 Core Banking Systems (CBS) and unified payment hubs.

Lending Lifecycle

Digitization of Loan Origination Systems (LOS) to reduce "time-to-cash."

Revenue Orchestration

Intelligent pricing and fee management to maximize monetization.

Key Strategic Partners

Cloud, Data & Agentic AI Engineering

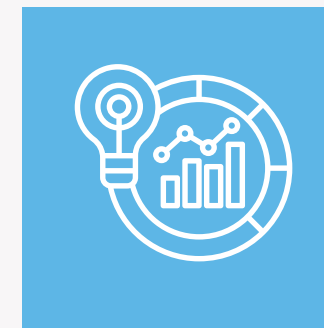

Building "Neural Network" for modern enterprise

We build and manage the "neural network" of the modern enterprise using resilient cloud architectures on **AWS** and **Azure**. From designing secure landing zones to operating a **Tier-3 grade data center**, our managed services ensure **99.9% uptime** for your most critical applications. We bridge the gap between complex infrastructure and business agility, providing **24/7 L3 support** and **disaster recovery** to ensure your operations are always-on and audit-ready.

Resilient Cloud Architecture

Designing secure landing zones on AWS and Azure with a focus on high availability.

Data Intelligence

Constructing Enterprise Data Lakes that turn unstructured data into actionable insights.

Generative AI

Deploying AI agents and predictive models to automate customer engagement and internal operations.

Key Strategic Partners

Cyber Resilience, Identity & Compliance

Proactive Defense in an Era of Disruption

Security is not an add-on; it is built into the design phase of every project through **Frost Secure**. We provide a unique, unified service that integrates **SOC, SIEM, and NOC** into a single proactive defense engine. With native **SOAR capabilities** for real-time threat blocking and **AI-powered fraud detection**, we ensure your institution remains compliant with global standards while protecting mission-critical data from sophisticated cyber threats.

Continuous Monitoring

24/7 SOC and SIEM operations for real-time threat detection.

Financial Crime Prevention

AI-powered AML, KYC, and Fraud detection systems.

Data Sovereignty

Comprehensive PII protection and secure data vaulting.

Key Strategic Partners

Intelligent Automation & Ecosystem Integration

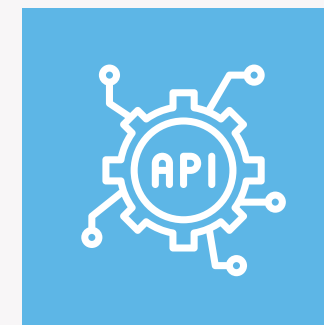

Bridge the Legacy Gap with Intelligent, Connected Workflows.

We eliminate operational friction by unifying RPA and BPM to automate repetitive tasks and streamline complex workflows. By implementing robust API Gateways, we bridge the gap between your legacy systems and the global fintech ecosystem. This ensures your institution is Open Banking ready—capable of integrating seamlessly with third-party innovators while maximizing internal efficiency.

Workflow Automation

Leveraging Robotic Process Automation (RPA) with Business Process Management (BPM) to eliminate manual overhead.

Open Banking & API Strategy

We implement robust API Gateways that serve as the bridge between your stable legacy systems and the global fintech ecosystem.

Key Strategic Partners

The Delivery Framework: PMO & Operational Excellence

We believe enterprise transformation cannot be "commoditized" into simple rate cards. Our engagement is consultative and value-driven:

Discovery

Preliminary assessment of the current technology landscape and business pain points.

Solutioning

Collaborative design of a bespoke technical and commercial roadmap.

Deployment

Agile implementation with integrated PMO oversight.

L3 Support

Continuous Managed Services, Cloud Ops, and 24/7 Helpdesk support.
